

Artiplus Expert Meeting – Copenhagen 2025

Main Goal: to create a unique and inspiring evening that fosters engaging discussions and meaningful connections among current and prospective Artiplus users. The event will center around real clinical cases presented by early adopters, providing a rich foundation for in-depth, peer-to-peer exchange of insights and experiences.

Discussions will focus on key topics such as patient selection, best practices in phakic presbyopia surgery, and diverse clinical strategies for Artiplus implantation. This includes approaches and outcomes in post-LASIK eyes, mix & match techniques, unilateral and bilateral cases, as well as the practical challenges encountered in these complex scenarios.

Date & Place: 14th September 2025, Mogens Dahl Concert hall (Copenhagen, Denmark)

Participants: This event is exclusively for members of the *Artiplus Expert Panel*. They will be invited to register by e-mail and LinkedIn.

Speakers:

Moderator: Úrsula Jaén

Panel members: Dr. Julián Cezón, Prof. Jorge Alió, Dr. Sebastian Beckers

Speakers: Dr. P. Cardoso, Dr. G. Rohrbach, Dr. J.M. Bosc
